

## Follow Up Visit (s)

---

My symptoms have changed?

Date:

or remained the same?

The reason for my visit:

What screening tests do I need?

Should I change my diet? If so, how?

How many patients with this ailment have you treated personally? What can you say about their progress?

What should I expect?

What do I need to know about this treatment plan?

Should I seek other medical advice before moving forward?

Do I need to see you again? Y OR N? If so, when? What will we assess?

What steps should I take on my own for personal wellness?

What is my given outcome 3 months from now, based off of what you've told me?

Don't forget to:

Notes:
